NORTHEASTERN REGION

Nova Scotia's Northeastern Region comprises the counties of Colchester, Cumberland, Pictou, Antigonish and Guysborough.

The first settlement in this area was at Fort Cumberland, formerly Fort Beausejour. European settlement began in earnest in 1763 when New England emigrants arrived in Cumberland County. In 1767, the "Betsy" landed at Pictou carrying settlers from Maryland and Pennsylvania. The Scottish heritage in Pictou and Antigonish Counties began shortly thereafter with the arrival of the "Hector" in 1773. Through the eighteenth century, fishing operations developed along the Guysborough shore, shipbuilding began on the Northumberland shore and the Minas Basin and in 1798, coal was discovered at Stellarton. At its peak, this coalfield employed over 2,000 men and produced 900,000 tons of coal a year. During this period, extensive farming also developed through the fertile land areas of Colchester, Pictou and Antigonish counties.

In 1871, coal mining began at Springhill and was the mainstay of the local economy until the 1950's when several mine disasters closed all the major operations. Within Guysborough County, the first gold strike was made at Wine Harbour. By the time of World War II, almost 40% of provincial gold production was taking place in the county, and the population had pushed above 18,000. By 1872, the rail links had been completed from Halifax to Amherst, and Truro began to prosper as a central distribution point.

The foundations for Pictou County's era as a leader in heavy industry were laid by 1880. The first steel ingots in Canada were poured at Trenton in 1883 and by 1912, the Trenton Works and the Eastern Car Co. were producing steel ships, shells and armour plate. These heavy industries prospered during both World Wars, but downturns were experienced during the post-war periods.

The economy of the region, today, is very diversified with the fishing industry being the mainstay within Guysborough County. The growing industrial complex around Mulgrave and Port Hawkesbury at the Strait of Canso employs persons from both Guysborough and Antigonish Counties. In Pictou County, the Scott Maritimes Limited pulp mill and the Michelin Tire plant have strengthened the local economy, while St. Francis Xavier University in Antigonish, founded in 1853, remains the focus of economic activity in that county. Both Cumberland and Colchester Counties have attracted light industrial and commercial activities due to their central locations. Tourism has become an important part of the local economy with the gateway to the province at Amherst and the warm water and beaches of the Northumberland Strait being an attraction for tourists and cottage development.

Within the region, several hospitals are in different phases of expansion/renovation--a $10 million addition to Colchester Hospital in Truro, a $5.5 million addition to All Saints Hospital in Springhill, smaller projects at hospitals in Advocate Harbour and Pugwash, a new $29 million St. Martha's Hospital in Antigonish and as well, there is a planned $14 million expansion of Aberdeen Hospital in New Glasgow. Resort complexes are contemplated for Pugwash, Wentworth and Tangier areas and a downtown hotel-convention/cultural development for Amherst. A $185 million expansion of Michelin Tires (Canada) Ltd. at Granton is also anticipated.

Due to the lack of legal or official boundaries, the Census is not always able to distinguish the population of these unincorporated places from that of the surrounding area. The population figures shown above for 1981 and 1986 should thus be considered as approximations.

TRANSPORTATION

Roads

Highways from all points in the United States and Canada join the Trans Canada Highway from New Brunswick into Nova Scotia.

Administration of public highways in Nova Scotia is a provincial government function performed by the Department of Transportation and Communications. Its responsibilities include the construction and maintenance of Nova Scotia's approximately 25,800 km (16,035 mi.) of roads and several local ferry operations.

The Department classifies its roads as follows:

Freeway: A multi-lane, divided highway designed to carry large volumes of traffic at high speeds under free-flow conditions. There is full control of access on a freeway, with access at interchanges only. Freeways provide service within urban areas and also connect major centres and areas of major economic importance within the province or to adjacent provinces or states.

Arterial: A highway, two lane or multi-lane, usually with limited access designed to carry significant volumes of traffic at high speeds within urban areas or between major economic areas and points of entry.

Collector: Highways, which give equal importance to traffic and land service functions are referred to as collectors. They form an integrated network throughout developed areas, and provide road access to resource and resort areas, industrial centres, smaller towns and villages. Generally, they collect traffic from local roads and feed it to arterials and freeways, or vice versa. Access may be regulated.

Local: Highways that have land access as their primary function. Access points may be frequent, both to adjacent land and at street intersections. Generally, traffic volumes are significantly lower than for other classifications.

ROAD KILOMETRAGES - 1987

	Paved					
	Freeway	Arterial	Collector	Local	Unpaved	Total
			(kilometres)			
Antigonish County	0	103.0	172.4	122.4	739.5	1,137.3

Rail

Rail transportation is often the shippers most cost effective choice for the bulk transportation and distribution of goods. There are over 1,100 km (700 mi.) of track in Nova Scotia. Canadian National Railways (CN) offers freight services on a regular basis on some 800 km (500 mi.) of this system providing intermodal and carload services to the rest of Canada. Daily scheduled services run from Halifax to Truro and Moncton, from Truro to Sydney, and from North Sydney to Newfoundland via Marine Atlantic. In addition to Canadian National's mainline operation in the northeastern region, there are spur lines running to Pugwash, Granton and Trenton.

VIA Rail Canada provides intercity rail passenger service in Nova Scotia. Rail diesel cars travel daily through the region between the following points: Halifax-Truro-Port Hawkesbury, Halifax-Truro-Sydney and Halifax-Truro-Saint John. A full service train, the Atlantic Transcontinental, operates on a daily basis between Halifax and Montreal, connecting with services to Toronto and western Canada.

Air

Commercial air services are available at Halifax International Airport. Truro, the closest major center within this region to the airport, is about a half hour drive from the airport. Amherst and Antigonish, major centers at each of the farthest points in the region from the airport, are approximately a one and a half hour drive away. Amherst is also approximately a half hour drive from the airport in Moncton, New Brunswick.

Halifax International, which ranks eighth among Canadian airports in numbers of arriving and departing passengers, is served by Air Canada, Canadian Air Lines International, Air Atlantic, and Air Nova. There are daily scheduled flights to and from all major centres within the Atlantic Provinces, as well as Montreal, Ottawa, and Toronto, with connections and/or through service to western Canada and the United States. Also, there are regularly scheduled services from Halifax to Boston, New York, London and Amsterdam.

There is also a municipally owned local airport at Trenton, Pictou County and a provincially owned airport at Debert, Colchester County.

AIRPORTS

Airport Location	Runway Number	Runway Size	Runway Surface
Halifax	06-24	2682m x 61m	Asphalt/Concrete
	15-33	2347m x 61m	Asphalt
Trenton	07-25	1219m x 46m	Asphalt
Debert	10-28	1524m x 46m	Asphalt
	16-34	1524m x 46m	Asphalt

Bus

Intercity Public Transportation Services include:

Acadian Lines	Halifax - Sydney via Baddeck and via St. Peter's Halifax - Amherst via Parrsboro and via Wentworth Valley
Al's Taxi	Canso - Antigonish
Zinck's Bus Company	Halifax - Sherbrooke via Eastern Shore

Urban Transit Systems include:

Pictou County Regional Transit Authority	Handles service in towns of New Glasgow, Stellarton, Trenton, Westville, Pictou and parts of the County of Pictou
Truro - Colchester Joint Expenditure Board	Provides a disabled persons transit service in Truro and parts of Colchester County.

Marine

Being a coastal province, Nova Scotia has always enjoyed the benefits of numerous sheltered ports and harbours.

Facilities within Nova Scotia's Northeastern Region include:

FERRY SERVICE

Guysborough County	Local Country Harbour Ferry 12 Vehicles
Pictou County	Local Pictou Island Ferry Passenger only (summer)
	Interprovincial Ferry Service Operated by Northumberland Ferries Ltd. Runs between Caribou, Pictou County and Wood Islands, Prince Edward Island May 1st -Dec. 15th 22 km, 1 1/4 hours 325 passengers 60 vehicles

PORTS

Cumberland County

Parrsboro
Mobile cranes available.

Accommodation:
Channel dry at LW. At neaps at Dept. of Transport Pier, 5.18 m d can be safely carried; at springs, 6.70 m d. Good anchorage off lighthouse and roads in approx. 11 m. Government Pier, 99.97 m berthing length. No sheds, handling facilities or railroad tracks. Crib, 100 m long and 15.8 breadth constructed alongside wharf for ships to lie aground at LW while loading.

Pugwash

Accommodation:
Anchorage in basin off Pugwash light or at mouth of harbour. Government Railway Wharf: Berthing length 144.8 m on west face with 7.31 m depth at LW. Berthing length 147.8 m on south face with 5.18 m depth at LW; two small steamers can load at wharf simultaneously.

Guysborough County

Canso Harbour
Open all year; sometimes closed in February; general freight shed on Dept. of Transport Wharf; portable cranes available.

Accommodation:

Berth	Length (m)	Depth alongside at low water (m)
Dept. of Transport Wharf	60.95	5.79 at outer end
(L-shaped) end	24.69	4.57
Canso Seafoods Wharf	57	5.79 at head 4.27 at shore end

Other wharves used by the fishing trade have a depth of 4.27 m or less. Secure anchorage inside and outside the breakwater. Main export - fish. Main imports - oil, salt and general merchandise.

Country Harbour
Mobile cranes and bulk cargo facilities available.

Accommodation:
Dept. of Transport wharf with 76.2 m alongside. Privately-owned pulpwood loading facilities. Wharf 51.2 m long with 12.8 m directly alongside and 33.5 m depth, 21.3 m from wharf head.

Isaac's Harbour
Portable and derrick cranes available.

Accommodation:
Government Wharf, lengths 91.48 m width 7.6 m, depth 3.96 m.

Liscomb
Portable and derrick cranes available.

Accommodation:
Government Wharf, length 48 m, depth at face 4.57 m, with six berths. Good anchorage. Mud bottom.

Mulgrave

Accommodation:
There is good anchorage sheltered from NW winds in 10.7 - 13.7 m with mud bottom, off the mouth of Venus Cove, with Macnair Point (distant about 365.8 m) in line with Port Hastings, bearing 347°. The Government Wharf on the south point of Murray Cove has a quay wall 256.9 m long. The depths alongside the quay wall are from 5.5 - 9.1 m. There is a ro/ro loading ramp at the south end. An Irving Oil catwalk, 61.3 m long, with a 5.2 m square wharf at its outer end, is situated on the south side of Venus Cove. There is at least a depth of 3.4 m at its face.

Government Wharf 243.8 m long, maximum draft 7.62 m handling vessels up to 5,000 dwt, with rail connection. Used for shipping pulpwood and by small coastal vessels.

Pictou County

New Glasgow
Navigation season is April to November, with ice forming in late November and breaking up by April; portable cranes available.

Accommodation:
Dept. of Transport Wharf, berthing length 171.29 m, depth alongside 3.04 m, at low water. Water main on wharf, no railroad tracks. Berth is used for general freight.

Pictou
Navigational season is May 1 to December 25; mobile cranes up to 25 tons, one 50 ton heavy lift crane on sea wall.

Accommodation:
